

KCZ – Training concept

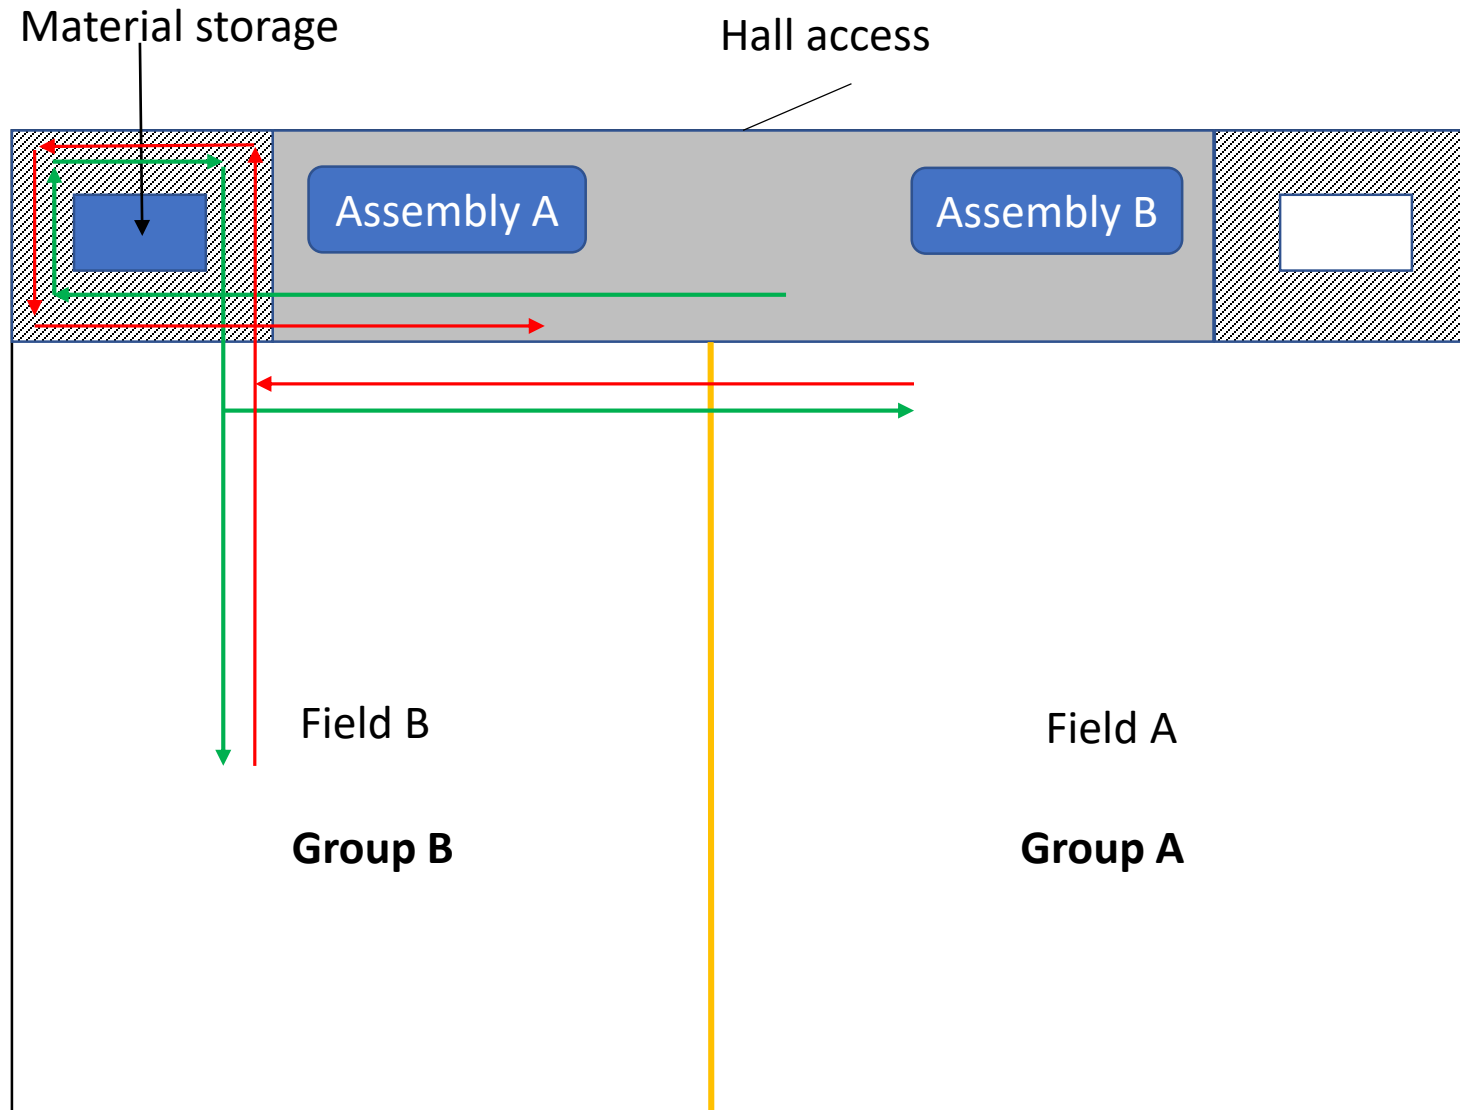

12.05.2020

- Schauenberg situation
- Schütze situation

- People will sign up for a specific group and training
- People stay during the training in their group
- The trainer will check that people obtain 2m distance

Schauenberg Situation: Two Teams Simultaneously (21:00-22:00)

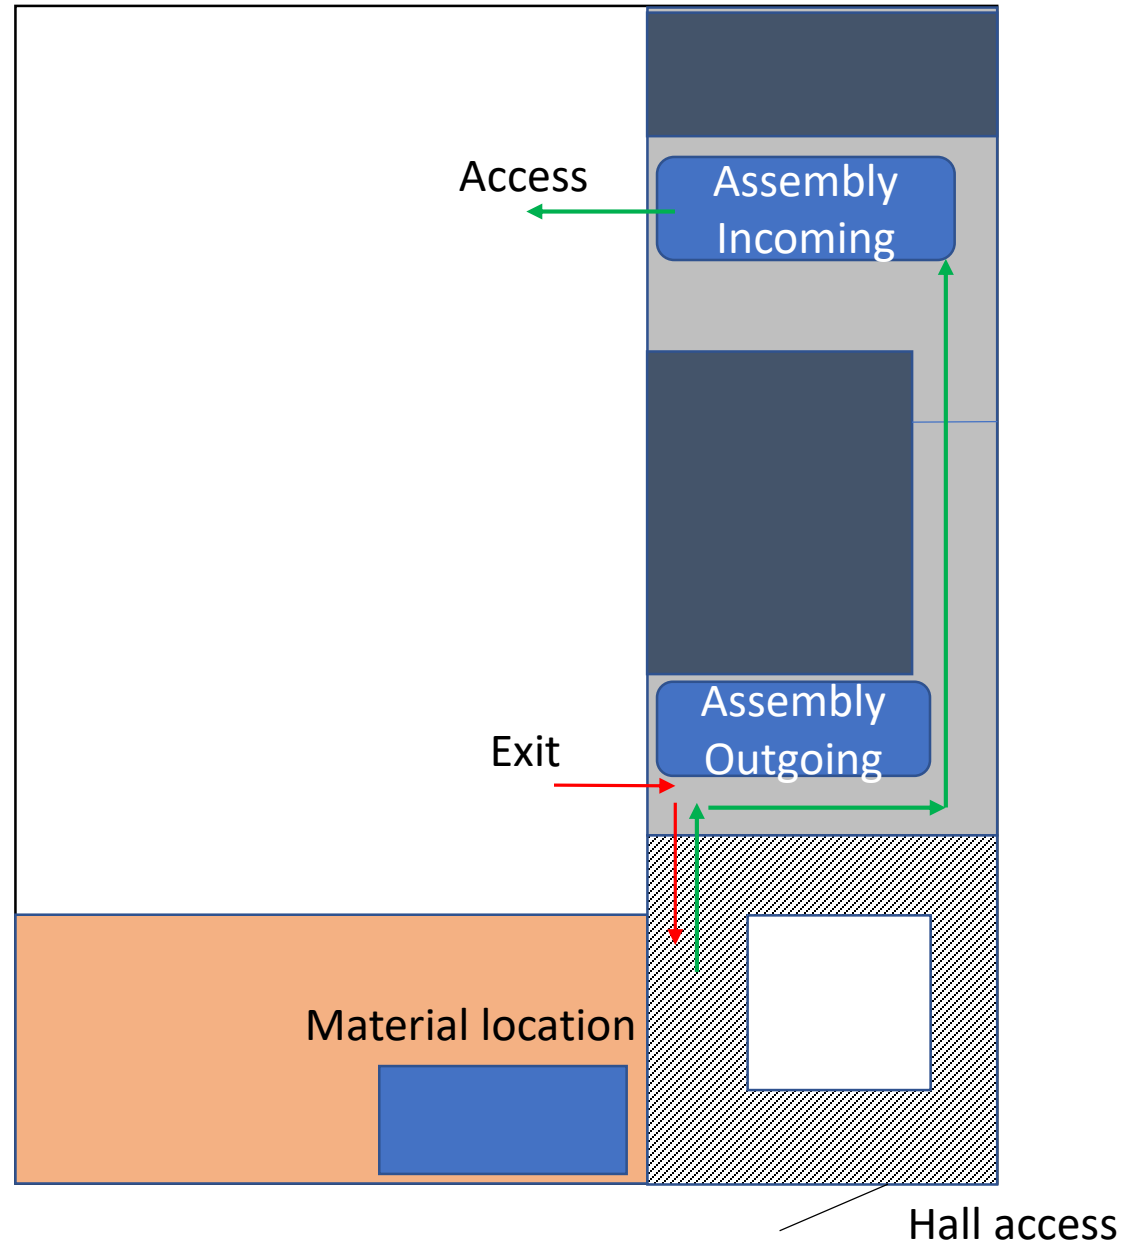

Start of training:

- People will change shoes upstairs where there is sufficient space in the area corresponding to the group A or B
- Group A will collect their post 1st and bring it to their field (A)
- Group B will collect their post 2nd and bring it to their field (B)
- Trainer of group B will collect the balls and bring them to the hall
- Trainer of group B will take out the balls for its field and put the bag aside so the trainer of group A can collect the balls
- The trainers will clean the balls before handing them out
- Training can start according the precautions described in the procedure

End of training:

- Trainer of group B puts cleaning aids at storage location
- Group A will collect their posts 1st and bring them back to the storage location and clean them
- Trainer Group A collects balls and clean them and put them in the bag
- The complete group A leaves the same way as they came
- Group B will collect their post as 2nd and bring them back to the storage and clean them
- Trainer of Group B will collect the balls and clean them and put them in the bag and return the bag to the dedicated storage
- The complete group B leaves the same way as they came
- People will change shoes upstairs where there is sufficient space in the area corresponding to their group A or B
